DIY CONCRETE WINE BAR Learn how to make wine bar for your home out of 2x4s and a concrete countertop. Trim 1/4" off of each side-STEP 1. CUT THE 2x4s I used my miter saw to cut the 2x4s to length and then used my table saw to trim 1/4" off of each side. STEP 2. CLAMP 2x4s TOGETHER AND DRILL HOLES For the wine racks I clamped 2x4s together and marked center locations before drilling holes 3-1/2" Diameter Hole Saw between the pieces. 1-1/2" Diameter Bit 4" 4" 4" 4" 4" 4" 4" 4" 4" 4-1/3 000000000 000000000 STEP 3. TRIM THE RACKS I trimmed off 1/4" of each side of the 2x4s on my table saw. STEP 4. GLUE SIDE PANELS AND CUT GROOVES STEP 5. FINISH THE PANELS I glued together two panels that are made out of 7 I glued 3 more pieces of 2x4s onto panels and then sanded pieces of 2x4 each and then cut grooves in them with them with my orbital sander. my circular saw and a chisel. STEP 6. ASSEMBLE THE BASE I screwed short pieces of 2x4 in between the racks and then assembled the entire base of the wine bar. 15" 33' STEP 7. ADD THE COUNTERTOP I measured the top of the base and then made a concrete countertop to sit on top.
